Article Numbers: 163826, 163825

Safety Instructions:

- Avoid tripping hazards and check the area regularly to ensure that it is intact.
- Only suitable for indoor use to avoid risks due to weather influences.
- Before use, check the weight of the cables to ensure that the load capacity does not exceed 600 kg.
- Cable bridges must be properly rolled out and securely positioned to prevent slippage.
- Place cable bridges out of the reach of children for safety.
- Do not remove any parts from the cable bridge so as not to impair its safety and load-bearing capacity.
- Ensure that cables are correctly inserted before use.
- The cable bridge must lie on a flat surface to avoid tripping hazards.
