Safety Instructions:

- Observe the maximum surface load of 300 kg to prevent overloading and damage.
- Ensure that all parts are properly assembled before use to ensure stability.
- Installation should be carried out in accordance with the enclosed instructions to ensure safety and functionality.
- Avoid sharp objects on the worktop and protect the surface from scratches and knocks to ensure its longevity.
- Use suitable protective equipment during assembly and when moving heavy materials to avoid injury.
- Keep the worktop free of obstacles and avoid contact with water and aggressive chemicals to prevent damage to the worktop.
- Ensure that the worktable is mounted on a stable, level surface to avoid the risk of tipping and overturning.
- The working height is adjustable from 800 to 850 mm - make sure the setting is correct to avoid back pain and instability.
- Disassembled delivery requires careful reading of the assembly instructions to prevent errors and injuries.
- Regularly inspect the table for wear or damage.
- Contact the manufacturer in the event of safety problems with the product.
