Safety Instructions:

- Make sure that the table is stable during assembly to avoid the risk of it toppling over and that it is placed on a stable, level surface.
- Avoid excessive loads and observe the maximum surface load of 300 kg to prevent overloading and safety risks.
- Secure all parts firmly in accordance with the instructions and check them regularly for damage to prevent injuries caused by loose or incorrectly fitted parts.
- Children, pets and unauthorised persons should be kept away from the work surface to avoid injury.
- When assembling, follow the instructions carefully to ensure that the table is correctly and stably assembled and that all screws are firmly tightened.
- Treat the worktop with vegetable oil and protect it from direct moisture and from sharp and hot objects to prevent damage and increase its service life.
- Use suitable protective equipment when assembling and using the table, especially when working with heavy loads.
- Avoid aggressive cleaning agents and chemicals, especially with coated materials, to prevent damage and possible allergic reactions.
- To avoid injury and damage, do not use the table as a ladder or to support loads in excess of the maximum surface load.
- The product is only to be used for its intended purpose and is not suitable for outdoor use or under extreme conditions.
- The powder coating could be damaged if exposed to chemicals, so aggressive cleaning agents should be avoided.
- Keep the workplace clean and free of obstacles to avoid falls and accidents, and regularly check the stability and safety during intensive use.
- The work table is suitable for assembly, order picking, packing and despatch, but not for use by children.
