Safety Instructions:

- Maximum surface load: 1,250 kg to avoid structural damage or accidents.
- Ensure that the worktop is stable and correctly installed.
- Painted surfaces can be slippery, be careful when using them.
- Use the central locking system correctly and keep the key safe to prevent unauthorised access.
- Familiarise yourself with the safety features and correct use of the product.
- Wear protective clothing to avoid injury and use gloves during assembly.
- Check the stability and welded joints regularly.
- Not suitable for children - risk of injury.
- Step-by-step instructions for safe handling of the product are included in the packaging - read before use.
- Do not work with sharp objects on the worktop to avoid damage.
- Paintwork contains environmentally friendly powder coating - tested for allergies and avoid skin contact.
- Place the product on a stable, level surface to prevent it from tipping over.
- Use of the integrated handles is recommended for safe handling.
