

Product Safety Information

Waste bin, 120 l

Manufacturer/Responsible Person: NordSüd Wertstoff- und Abfalltechnik, Wilhelm-Binder-Str. 19, 78048 Villingen-Schwenningen, Deutschland

E-Mail: vertrieb@nordsued-wat.de

Please note the technical data of the products!

Article Numbers: 133254, 133253, 133252, 133251, 133250, 133249

Safety Instructions:

- Ensure that the waste bin cannot tip over by placing it on a stable, level surface, especially in strong winds or on uneven ground.
- Avoid overfilling to minimise the risk of loss of waste material and associated injuries.
- The use of suitable gloves when handling sharp or hazardous waste is recommended to avoid skin contact.
- Regularly check the double doors for proper functionality to ensure safe and easy removal of the bin liner.
- Ensure that the waste collector is kept away from children to minimise the risk of injury.
- Ensure that the waste is disposed of in accordance with local rules and regulations.
- Ensure that the waste bin is fireproof and do not throw any flammable materials into it or place it near naked flames or high temperatures.
- Product is made of galvanised sheet metal, not rustproof, therefore protect against corrosion.
- The powder coating can flake off if handled improperly, so do not use sharp objects.
- Observe fire safety; the product is fireproof but not fire-resistant.
- The weight of 20 kg can lead to injuries; request support when lifting.
- Do not overload; maximum capacity 120 litres according to the manufacturer's instructions.
- Dispose of the waste collector in accordance with local waste disposal regulations.
- Take care when lifting the waste collector due to its weight of 20 kg.
- Avoid contact with sharp edges of the galvanised sheet metal during use.
