

Product Safety Information

Shelving system R 3000, frame, H 2278 mm

Please note the technical data of the products!

Article Numbers: 30524, 30523, 30522, 30521, 30520

Safety Instructions:

- Mount the shelving system on a stable, level surface and ensure that it is stable to prevent it from tipping over.
- Avoid overloading the shelving system by observing the maximum load capacity of the shelves to prevent structural damage or tipping.
- Use bulkhead stays for the stability of the shelves and make sure that intermediate shelves are properly hung in the intended grid.
- Take suitable safety precautions when transporting the shelving system to avoid injury.
- Follow safety information and installation instructions provided in plain language and ensure installation according to the instructions to avoid improper installation.
- Keep out of the reach of children and keep small parts and accessories out of their reach to prevent accidents.
- Store heavy objects safely and not above the recommended height to reduce the risk of injury.
- Ensure that the product is only used for its intended purpose to avoid damage and injury.
- To avoid damage, do not store the shelving system near sources of water or high temperatures.
- Wait until the shelving system is fully stable before storing heavy objects.
- Sharp edges and corners can cause injuries.
