Article Numbers: 33458, 33457, 33456

Safety Instructions:

- Observe the permissible shelf load of 500 kg with an evenly distributed load.
- Avoid overloading the shelf as this can lead to structural damage.
- Use suitable bases or chipboard to store small parts.
- Ensure that the floor is properly installed and stable before loading.
- Follow the recommendations for adjusting the height of the shelves in 62.5 mm increments.
- Ensure that the assembly instructions are followed to ensure stability and safety.
- Ensure that the floor is fully and correctly inserted to avoid the risk of falling and injury.
- Observe safety precautions when loading to avoid overloading.
- When adjusting the height, ensure that the stability of the structure is not impaired.
- Read the assembly instructions and safety instructions before use.
- Child safety: The product is not intended for use by children.
