Article Numbers: 33467, 33466, 33465

Safety Instructions:

- Beware of severe collapse due to insufficient load distribution.
- Do not store near sources of heat or naked flames.
- Use only for the intended applications in accordance with the instructions and ensure that the product is suitable for the intended use.
- Observe the maximum shelf load of 500 kg only when the load is evenly distributed and do not exceed the maximum shelf load to avoid structural damage.
- Before use, ensure that the substructure is stable and load-bearing.
- Ensure that the edges of the clamping plate are not damaged or displaced to prevent material failure.
- Before use, ensure that the chipboard is correctly installed and check edges and surfaces for damage to prevent cracking or splintering.
