Safety Instructions:

- Before use, check that the workbench is standing on a stable surface and only operate it on a stable and level surface to prevent it from turning over or wobbling.
- Wear suitable personal protective equipment such as gloves and safety goggles when working, especially when handling sharp edges.
- Avoid working with heavy or bulky materials without adequate support or assistance.
- Ensure that the maximum surface load of 1,250 kg is not exceeded in order to avoid damage and injury.
- The workbench should only be used for its intended purpose and not as a standing surface or ladder.
- Ensure safe assembly and regular inspection of the stability and connections of the workbench.
- Keep the work surface clean and free of slippery materials and close all drawers and doors securely to prevent accidents.
- Observe the safety information on use and installation in the operating instructions.
- The product should not be used by children as it is not childproof.
