### Safety Instructions:

- Beware of the risk of injury from sharp edges and corners.
- Do not exceed the maximum surface load of 1,250 kg.
- Do not overload the drawer, observe load capacity 100 kg.
- Close the doors properly to avoid the risk of crushing and injury.
- Protect the product from moisture to prevent material damage.
- Use the central locking system to prevent unauthorised access.
- Avoid the risk of falling over and crushing when moving the product.
- The installation and safety instructions must be read and followed before use.
- Avoid incorrect use, which can lead to instability.
- Ensure that the furniture is placed on a stable, level surface and use anti-slip studs when used on smooth floors.
- Coatings can fade in direct sunlight.
- Suitable for indoor use; do not expose to the weather.
- Always wear suitable protective equipment to ensure safe use of the workbench.
- Make sure that the work surface is clean and free of objects that could cause it to fall.
- The integrated anti-slip studs ensure a stable stand. Check these regularly.
- Ensure that the worktop is properly installed to ensure stability.
- Use safe and suitable tools when installing the product to avoid injury.
- Keep the product clean to minimise the risk of slipping, especially from oily or dirty surfaces.
