Safety Instructions:

- Safety instructions to avoid crushing by drawers and correct handling to prevent the workbench from tipping over.
- Observe protection against injuries caused by sharp edges on the worktop.
- When handling heavy loads, do not exceed the maximum surface load of 1,250 kg.
- Avoid overloading the frame, especially with heavy loads.
- Wear suitable personal protective equipment for assembly and use.
- Ensure that the product is placed on a stable, level and unstable surface.
- Observe child safety measures, especially when handling drawers and smaller parts.
- Take care when using electrical tools near the workbench. Keep away from heat sources and moisture.
- Follow the instructions for safe installation, use and maintenance in accordance with the operating instructions and secure correctly for transport.
- Drawers must not be loaded above the maximum load capacity of 100 kg in order to avoid hazards due to falling or wobbling.
- When opening/closing the drawers, be aware of the risk of trapping fingers.
- Make sure that no heavy objects fall onto the worktop.
