Safety Instructions:

- Risk of suffocation if small parts are handled carelessly in the pull-out drawer.
- Risk of physical injury due to improper use of lockable roller shutters.
- Hazardous electrical components must be used in accordance with the applicable safety standards. Ensure that all electrical components are properly installed to minimise the risk of electric shock.
- Users should be aware of rolling movements to avoid tripping accidents.
- The load capacity of the pull-out drawer and the pull-out shelf must not be exceeded (maximum 35 kg); exceeding this may result in damage.
- The station should always be placed on a stable and level surface to prevent it from tipping over or slipping.
- Ensure that users do not exert excessive force on the keyboard drawer to prevent damage.
- The swivel castors should only be used in the mobile version; ensure that the brakes are properly activated.
- Take hygienic measures to avoid the risk of dirt accumulating in cable ducts.
