Article Numbers: 155160, 155159

Safety Instructions:

- Observe the maximum load of 200 kg.
- Before moving the station, check that all castors are securely locked.
- Make sure that no excessively heavy or unstable objects are stored in the open storage compartment.
- Ensure that the cable aperture is used to avoid tripping hazards.
- Lock the lockable monitor compartment securely to prevent unauthorised access.
- Avoid overheating due to unrestricted air flow from the device cooler in the monitor compartment.
- The station should be placed on a level, stable surface to prevent it from wobbling or tipping over.
- The power strip must be installed correctly to avoid overloading.
- Check the station regularly for loose parts and damage.
- When using the mobile version, ensure that the swivel castors are properly locked to prevent unintentional rolling away.
