Safety Instructions:

- Beware of heavy lifting - the worktop has a maximum surface load of 1,250 kg.
- Drawers can be heavily loaded (up to 100 kg); ensure that the drawers are fully extended to prevent them from tipping over.
- Use the central locking system correctly to prevent unauthorised access.
- The structure and frame are made of tubular steel; watch out for sharp edges and points that could cause injury.
- Users should ensure that the workbench is placed on a stable and level surface to avoid situations where there is a risk of tipping.
