Article Numbers: 155152, 155151, 155150, 155149

Safety Instructions:

- Do not move or place the computer cabinet on uneven surfaces to prevent it from tipping over.
- Ensure that all cables are routed through the cable outlets provided to avoid injury, damage and tripping hazards.
- Make sure that at least two of the four swivel castors are fitted with brakes and that they are regularly checked for functionality to ensure stability and safe movement.
- Do not exceed the load capacity of the pull-out shelf (max. 20 kg) to prevent it from breaking or buckling.
- Ensure that the installation height of the pull-out shelf is set correctly to ensure ergonomic use.
- Use the lockable compartments to prevent unauthorised access.
- Safe handling of moving parts when opening the hinged doors.
- Watch out for sharp edges or corners that could cause injury.
- Do not install the computer cabinet near water sources or in damp environments.
- Use in accordance with the intended specifications; no modifications without consulting the manufacturer.
- Avoid placing hot or damp objects on or in the cabinet to prevent damage.
- Secure the hinged doors and the keyboard compartment when closing to prevent injury if they are opened carelessly.
- The cabinet is not designed for use by children. Keep it out of the reach of children.
