Article Numbers: 155148, 155147, 155146, 155145

Safety Instructions:

- Observe the maximum load capacity of 15 kg per shelf.
- Ensure that the stand is stable and cannot tip over during use.
- Use of the cable duct to avoid tripping hazards.
- Ensure that the product is placed on a stable surface.
- The product may only be used as intended in order to avoid injury.
- The product does not contain any sharp edges or hazardous materials.
- Avoid overloading the shelves to minimise the risk of injury.
- During assembly, ensure that all parts are correctly and firmly connected.
- Be careful when handling the castors to avoid injury.
- Keep small parts and cables away from children to avoid the risk of suffocation.
- Follow the assembly instructions to ensure safe assembly.
- Only use the cable duct for its intended purpose; improper use can lead to cable damage or electrical problems.
- When fitting the castors, make sure that they are properly secured to ensure safe use.
- Do not use the product near water or damp areas to avoid damage to electrical components.
- Read and follow all safety and assembly instructions carefully to minimise risks during use.
