**Article Numbers:** 155112, 155111, 155110, 155109

## Safety Instructions:

- Ensure that the workbench is stable and level to prevent it from tipping over.
- Maximum permissible surface load: 1,000 kg for substructure containers and workbench legs, 750 kg for 2 workbench legs.
- Do not overload drawers; adhere to the maximum load capacity of 100 kg per drawer.
- Check hinges regularly for proper functioning to prevent injuries.
- Operate the central locking system safely and without force to prevent damage and accidental opening.
- The workbench is designed for use by adults and should be kept away from children.
- Make sure that all drawers are correctly locked and aligned before using the workbench.
- Check surfaces regularly for damage to avoid injury.
- Always assemble or disassemble with suitable tools and on a stable, level surface.
- Ensure that the surface is protected from moisture by suitable care.
- Use products safely and according to the instructions.
- Do not store heavy or sharp objects in unsecured places.
