Article Numbers: 155120, 155119, 155118, 155117

Safety Instructions:

- Observe the maximum surface load of 1000 kg, in particular the weight of the objects, substructure container and workbench legs: 1000 kg; 2 workbench legs: 750 kg.
- Use drawers with a maximum load capacity of 100 kg, avoid overloading; do not load suspended drawers above 50 kg.
- Ensure that the workbench is stable to prevent it from slipping or tipping over.
- Operate the central locking system correctly, use the lock only by authorised persons; 2 keys supplied.
- Do not overload the worktop and protect it from excessive moisture to prevent damage.
- Ensure that there is no excessive load on the drawers and that they are installed correctly in accordance with the instructions.
- Keep children away from the workbench to avoid the risk of injury from falling or crushing.
- Use moving parts such as doors and drawers safely to avoid the risk of crushing; open doors up to max. 180°.
- Use the integrated handles to prevent slipping when opening.
- Observe environmentally friendly powder coating and painting: proper storage and disposal avoid chemical vapours.
- Avoid the risk of suffocation from small parts in drawers.
