

Product Safety Information

Workbench type 7502-1

Manufacturer/Responsible Person: RAU GmbH, Im Rohrbach 14 + 16, 72336 Balingen-Frommern, Deutschland

E-Mail: info@rau-gmbh.de

Please note the technical data of the products!

Article Numbers: 155136, 155135, 155134, 155133

Safety Instructions:

- Do not exceed the maximum surface load of 1000 kg.
- Do not overload drawers; observe the maximum load capacity of 100 kg per drawer.
- Ensure safe handling of the furniture to avoid crushing, especially when closing the doors.
- Check hinges regularly for function and safety.
- Do not use the workbench near water sources to avoid electrical risks.
- Only suitable for use in dry indoor areas.
- Ensure that all parts are present before assembly.
- Caution: Drawers can tip over if overloaded.
- Do not use the workbench as a ladder or for climbing.
- Always close the lock to prevent unauthorised access.
- Suitable for adults, not for children.
- Pay attention to personal safety when opening the doors, especially when fully loaded.
- Follow the manufacturer's instructions during installation and use.
- Secure the workbench against deliberate or unintentional tipping over.
- Ensure operational safety only when used properly.
- Only use the workbench on stable, level surfaces, as slippery or uneven surfaces can lead to falls.
- Avoid overloading the drawers; maximum load capacity per drawer is 100 kg.
- The surfaces are oiled; avoid direct contact with aggressive chemicals to prevent damage.
- Do not use the workbench for purposes for which it is not intended, in particular for heavy machinery or as a platform.
