Safety Instructions:

- Ensure that the workbench is stable on a level surface to prevent it from tipping over.
- Observe the maximum surface load of 1,000 kg to prevent breakage or tipping over.
- Do not load drawers above the maximum load capacity of 100 kg (per drawer).
- When using sharp tools, follow the safety instructions and wear protective clothing.
- Ensure protection against injuries caused by sharp edges of the worktop.
- Be aware of the risk of crushing when opening or closing drawers.
- Only use the central locking system when drawers and doors are closed to avoid accidents and prevent unauthorised access.
- Open doors with self-retracting spring hinges carefully to avoid injury.
- Check the workbench regularly for hinges and locks to ensure safe handling.
- Improper use can cause injuries; do not use the workbench as a climbing aid.
- Only use the workbench for its intended purpose as described in the product description.
- Keep the product away from children to minimise the risk of injury due to improper use.
- Enclose all safety and installation instructions in an understandable language.
- Wear suitable protective clothing for assembly and use to avoid injury.
- Observe the child safety lock to ensure that children do not handle the product without authorisation.
