Article Numbers: 306348, 306347, 306346, 306345, 306344, 306343

Safety Instructions:

- Make sure that the shelf ladder is placed on a stable, level and dry floor to prevent it from tipping over or slipping.
- Only use the suspension hooks for the intended, approved round tube rails with a diameter of 30 mm and secure them properly before stepping onto the ladder.
- Please ensure that you always keep both hands free when climbing the ladder and that one person secures the ladder to prevent falls.
- The use of the shelf ladder by children is prohibited. Keep them out of the reach of children to avoid the risk of injury.
- Check the shelf ladder regularly for damage and wear to ensure safety. Check all parts for damage before use.
- Follow the installation and operating instructions carefully to ensure safety during use.
- Observe the maximum load capacity to prevent the ladder from tipping over or being overloaded: Do not use the ladder above the maximum height.
- Wear non-slip shoes and make sure you have a firm grip and a secure hold when using the ladder.
- The ladder is not suitable for commercial use unless it is expressly designed for this purpose.
- Ensure that you keep a safe distance from other objects and only use the shelf ladder for its intended purpose.
- There is a risk of injury if used incorrectly.
