Safety Instructions:

- Climb up and down safely to avoid the risk of falling and ensure proper use and attachment of the ladder hooks.
- Install the ladder in accordance with the assembly instructions and safety regulations; do not make any unauthorised modifications.
- Use only for the intended purpose, do not overload and do not exceed the maximum load capacity.
- Keep small parts away from children to avoid the risk of choking and do not use the shelf ladder as a toy.
- Check the shelf ladder for damage before use and do not use if defective; replace defective parts immediately.
- Not suitable for use on slippery or uneven surfaces; use only on firm, level and stable surfaces.
- Before use, ensure that the ladder is in perfect condition and that the hooks are correctly hooked into the round tubes.
- Keep your hands free when climbing, always keep an eye on the steps and use the handrail to increase safety.
- Observe safety warnings regarding the risk of falling and use only by qualified persons or with instructions.
- Wear appropriate personal protective equipment (e.g. shoes, gloves) during use.
- Children should be kept away from using the product.
