Safety Instructions:

- Ensure that the waste container does not tip over, especially in windy conditions; secure it in strong winds.
- Avoid placing the container on uneven or sloping surfaces; ensure that it is placed on a stable, level surface to prevent it from tipping over.
- Do not fill with flammable materials or use near open flames and extreme heat sources.
- Ensure that the container is cleaned regularly and emptied properly to prevent hygiene, odours and overflow.
- Protect the container from direct sunlight and extreme temperatures; ensure UV stabilisation.
- The product is designed for the intended use and is not suitable for personal use.
- Keep the waste container away from children to avoid injury; keep out of reach of children.
- Not suitable for children, danger of swallowing small parts; use under adult supervision recommended if children are nearby.
- The containers are heavy; be careful during transport and do not overload to avoid injury.
- Ensure that the waste container is not overloaded and that the maximum load capacity of 770 kg is not exceeded.
- Avoid using the container to store construction waste, toxic substances or perishable goods.
- Keep the container clean and in good condition to avoid injury; replace damaged parts immediately.
- Please observe the local regulations on waste disposal and ensure that use complies with local regulations.
- Carry out regular maintenance to ensure functionality and prevent damage.
- Do not use in closed rooms to avoid the accumulation of hazardous gases.
- To avoid injury, keep the waste container upright when lifting and transporting; watch out for sharp edges.
