Safety Instructions:

- Observe the correct handling when inserting the labels into the label holders.
- These products are not suitable for children under 3 years of age, as small parts can be swallowed.
- Make sure that the labels are available in a language suitable for the user.
- Avoid using damaged label holders to minimise safety risks.
- Ensure that the labels do not come into contact with food to avoid possible contamination.
- Labels should be checked regularly for legibility to ensure that they provide clear information.
- Care should be taken when using in high temperature or chemical environments to avoid damaging the labels.
