Please note the technical data of the products!

Article Numbers: 133876, 133875, 133874

Safety Instructions:

- Ensure that the waste bin is positioned on a stable base to prevent it from tipping over. The product is intended for installation in a stable location to prevent it from falling over or being damaged.
- Keep out of the reach of children to avoid accidents. Keep the product away from children, as hinged lids can be potentially dangerous.
- Carry out regular inspections to ensure that all parts are intact and safe. In particular, check the hold of the waste bags. Ensure that the waste bags are securely fastened in the holder to prevent them from falling out.
- When installing several waste bins, ensure that sufficient stability is guaranteed, especially when using a set of castors.
- Avoid overloading the waste collector to prevent damage and injury. Caution: Avoid overfilling the waste bags to prevent overflowing and possible injury. Roof Ensure that waste does not overflow when emptying the waste collector.
- Protect the waste bin from moisture and extreme temperatures. Avoid contact with water or damp conditions to prevent rusting.
- Do not use for the storage of flammable or hazardous materials.
- Use the waste bin with the corresponding castor set (not included in the scope of delivery) in accordance with the installation instructions. Only use approved castors for the product to ensure proper function and safety.
