

Product Safety Information

Hazardous material roller shutter cabinet, type RSG-2

Please note the technical data of the products!

Article Numbers: 133920, 133919, 133918, 133917, 133916

Safety Instructions:

- Maximum storage capacity: Do not exceed 6 x 60 litre barrels.
- For installation and transport: Note the weight of 162 kg.
- Secure the cabinet against tipping over and place it on a stable, level surface.
- Only use in well ventilated areas.
- Not suitable for the storage of flammable or explosive substances.
- Before use: Ensure that all safety precautions have been taken.
- Only authorised persons have access to prevent misuse or accidents.
- Check the drip tray regularly for damage and leaks.
- Avoid naked flames or high temperatures in the vicinity of the cabinet.
- Use a cylinder lock to secure the cabinet.
- For outdoor use: Pay attention to weather resistance and corrosion, especially in extreme weather conditions.
- Use only with chemicals recommended by the manufacturer.
- Regularly check the tightness of drums and drip pans to prevent leaks.
- The use of protective gloves is recommended when handling chemicals.
- Observe safe storage of hazardous substances in accordance with local regulations.
- Ensure that the roller shutter closes and locks properly.
