

Product Safety Information

Roller shutter cabinet for hazardous materials, type RSG-4, W 1294 x D 870 x H 1610 mm, lockable

Please note the technical data of the products!

Article Numbers: 133910, 133909, 133908, 133907, 133906

Safety Instructions:

- For indoor and outdoor use, ensure sufficient stability, wind load and protection from the weather.
- Protect the cabinet from moisture to prevent corrosion.
- Ensure that the product is properly installed and secured to prevent it from tipping over.
- Only use suitable small container tubs to avoid overflowing.
- Regularly check the integrity and condition of the drip trays and the cabinet body.
- The cabinet should only be used by authorised personnel, especially when storing hazardous substances.
- The cabinet must be properly ventilated when storing hazardous substances.
- Do not use overfilled drip pans to prevent hazardous liquids from overflowing.
- Carry out regular checks on the tightness and functionality of the locking mechanisms.
- Keep away from sources of heat or fire to minimise the risk of fire.
- Observe the safety data sheets of the stored hazardous substances and label them accordingly.
- Sump trays must be checked regularly for leaks.
- Only use the product in well-ventilated areas to avoid the accumulation of hazardous vapours.
- The product can cause serious injury or damage if handled incorrectly.
- Users should be provided with clear instructions on the safe handling and maintenance of the product.
- The product must be protected against unauthorised access as it may contain hazardous substances.
- Safety information on safe use must be included.
- Product may contain hazardous chemicals, therefore observe suitable protective measures.
- There is a risk of environmental pollution if used improperly.
- Regular maintenance and inspection for damage are required.
- For indoor use: Ensure adequate ventilation to prevent the accumulation of vapours.
- Set up securely to prevent tipping over.
- Suitable lifting aids must be used when handling heavy parts.
- Before use, ensure that the cylinder lock is properly closed.
- Dispose of hazardous substances in accordance with local regulations.
