

Product Safety Information

Shelf trough type RW/RW 3300-1, without grating

Please note the technical data of the products!

Article Numbers: 134033, 134032, 134031, 134030, 134029, 134028

Safety Instructions:

- Caution: Product is made of sheet steel, be aware of sharp edges when handling and wear protective gloves to avoid injury.
- The collection volume is 240 litres. Avoid overfilling to prevent deformation.
- Ensure that the shelf tray is positioned on a stable and level surface to prevent it from tipping over.
- Carry out regular inspections for rust formation and damage, especially on hot-dip galvanised surfaces, to ensure durability and safety.
- The shelf tray may only be used in the intended application in order to avoid damage and hazards.
- Ensure that the shelf tray is installed and assembled correctly to prevent it from tipping or falling over.
- Shelf trays are not suitable for storing food or for contact with food.
- With regard to installation, the manufacturer's instructions must be followed exactly to ensure that the safety requirements are met.
- Protect the shelf tray from extreme weather conditions that could affect the material integrity.
- The shelf tray is heavy and should be handled with care to avoid injury.
- Do not overload, do not exceed the maximum collection volume of 240 litres.
- The tray is not suitable for storing flammable materials in order to minimise the risk of fire.
- Please wear suitable personal protective equipment (PPE) when working with the shelf tray to avoid injury.
- Keep children away from the product to prevent injury from improper use.
