

# Product Safety Information

## Shelf trough type RW/GR 1800, with grating

Please note the technical data of the products!

**Article Numbers:** 134051, 134050, 134049, 134048, 134047, 134046

### Safety Instructions:

- Do not exceed the maximum load capacity of 1000 kg/sqm.
- Secure shelving trays stably and against tipping over during assembly and use.
- Carry out regular inspections for corrosion, structural integrity and damage.
- Pay attention to sharp edges and components to avoid the risk of injury.
- Caution: Product is heavy; be careful when lifting and handling.
- Only use for the intended purpose.
- Do not use for products sensitive to heat, water or chemicals.
- Ensure that the maximum collection volume of 240 litres is not exceeded.
- Provide user instructions for safe use and maintenance.
- Danger due to improper use: Risk of damage and associated hazards.
- Ensure that the shelf tray is standing on a stable and level surface.
- When storing liquids, ensure that there is sufficient collection capacity to prevent flooding.
- Take care when using with aggressive chemicals; take suitable protective measures.
- When filling, ensure safe handling and correct assembly to prevent tipping or overloading.
- Wear protective gloves when handling the shelf tray to avoid injury.
- Keep the area around the shelf tray free of objects to avoid tripping hazards.
