Safety Instructions:

- Ensure that the roller shutter cabinet stands on a stable surface and is stable to prevent it from tipping over.
- Small parts can cause a choking hazard if used incorrectly. Ensure that small parts cannot be reached by children.
- The product may only be used by adults under the supervision of children. Not suitable for children under 3 years of age without supervision.
- The operating instructions and safety information must be read thoroughly before use. Installation should be carried out in accordance with the enclosed instructions to ensure safe use.
- Avoid contact with sharp edges during assembly and use.
- Do not use the product near moisture as it could be damaged. The product is intended for indoor use only.
- If the product is damaged or functions abnormally, the manufacturer or dealer should be contacted immediately and the product withdrawn from the market.
- Regularly check the functionality of the lock and the handle opening to prevent unauthorised access.
- Make sure that the roller shutters are securely locked when closed to prevent accidental opening.
- Take care when using near children to minimise the risk of injury from the moving parts of the roller shutters.
- If necessary, provide clear instructions and safety information in an understandable language.
