Safety Instructions:

- Make sure that the hook rail is securely mounted on the wall or changing bench to prevent it from falling.
- The installation instructions must be followed carefully to avoid improper installation and possible injury.
- Avoid contact with water to prevent the steel hooks from rusting.
- Using hook rails to hang heavy objects could cause the hooks to break. Observe the recommended maximum weight of 5 kg.
- Do not exceed the maximum permissible load.
- Take care when using the double hooks with heavy items of clothing to avoid overloading.
- Before use, check the hook rail for visible damage and sharp edges to avoid injury.
- Edges and surfaces should be checked for potential injury hazards.
- Ensure that the cover is securely fastened to prevent hooks from falling.
- Choking hazard due to small parts: The product contains small parts and is not suitable for children under 3 years of age.
- Keep packaging materials and small parts such as screws away from children to avoid the risk of suffocation.
- Risk of slipping on contact with damp surfaces, as the underside of the hook rail may have slippery materials.
