## Shelf reinforcement, for steel shelf Status

**Manufacturer/Responsible Person:** Theo Kerkmann Büromöbelfabrik GmbH & Co. KG,  
Kerkmannstraße 1, 33729 Bielefeld, Deutschland

**E-Mail:** info@kerkmann.de

Please note the technical data of the products!

**Article Numbers:** 35798, 35797, 35796, 35795

### Safety Instructions:

- Only for use in steel shelving with a load capacity of up to 30 kg.
- Ensure that the shelf is properly clamped to prevent it from slipping.
- When using the shelf, pay attention to its stability and ensure that the load capacity of 30 kg is not exceeded.
- A maximum of one reinforcement per floor should be used to avoid overloading, and it must be securely clamped under the floor.
- Improper use may result in injury; risk of the shelf tipping over or collapsing.
