Safety Instructions:

- Prevent shelves from tipping out and over by ensuring that they are correctly and stably mounted on the shelf.
- Ensure that the dividers are installed and used correctly in accordance with the instructions to avoid the risk of injury.
- The product is only intended for the intended use and not for use by children without supervision.
- Protect the product from sharp edges and other hazards in the vicinity to prevent injury.
- Check the load-bearing capacity of the shelf before use and avoid excessive loads to prevent structural failure.
- Keep the area around the shelf free of obstacles to prevent falls or injuries.
- To minimise safety risks, do not use the shelf divider for unstable or heavy objects.
- Regular inspection for wear and damage is recommended.
- Read the instructions for use and safety information carefully before use.
