

Product Safety Information

Basic shelf unit, 4 shelves, painted, W 1055 x H 2278 mm

Please note the technical data of the products!

Article Numbers: 31149, 31148, 31147, 31146, 31145

Safety Instructions:

- Ensure that the shelf is only loaded in accordance with its intended use.
- Observe maximum load capacity per shelf: up to D 600 mm = 100 kg, up to D 800 mm = 200 kg, with even load distribution.
- Ensure that the shelf stands on a stable and level surface and is securely fastened to the wall to prevent it from tipping or falling over.
- During installation and use, make sure the surface is stable and the environment is clean and dry. Follow the enclosed installation instructions carefully.
- Take protective measures to avoid injuries from sharp edges and to protect small children from possible dangers.
- Take particular care when handling heavy loads to avoid back injuries.
- Keep small children away from the shelf to minimise the risk of injury.
- Carry out regular inspections for damage and stability of the shelving to detect wear.
- Avoid fluctuations in the load and ensure that the shelf is not loaded beyond the maximum load capacity.
- Check the shelf regularly after use and fit child safety locks if necessary.
