Safety Instructions:

- Ensure that the roller shutter cabinet is set up stably to prevent it from toppling over. Only use the cabinet on a level and stable surface and secure it securely to the wall.
- The usual safety features such as sharp edges should be covered or labelled.
- Provide recommended installation instructions and have the installation carried out by qualified personnel. Ensure that the manufacturer's instructions are followed.
- Clearly state the recommended areas of application and load capacities and use the product in accordance with the intended maximum load to avoid overloading.
- Train users on the correct handling and use of the product.
- Do not allow children to access the product without supervision to avoid the risk of injury.
- Keep the cabinet away from direct heat sources and moisture.
- Make sure that the height adjusters are set correctly to ensure stability.
- Carry out regular stability checks.
- Ensure clear labelling of risks, especially during transport.
