Safety Instructions:

- Ensure that the cabinet is placed on a stable, level surface to prevent it from tipping over.
- Avoid placing heavy objects on the top shelves or the top of the cabinet to prevent overweight and tipping.
- Keep the drawers and doors closed when the cabinet is not in use to avoid injury.
- Ask for assistance from several people when carrying and setting up the cabinet to avoid injuries caused by improper handling.
- Do not clean the cabinet with damp or wet cloths to avoid damaging the coating.
- Ensure that there are no sharp edges or protruding parts that could cause injury.
- Follow the enclosed instructions for installation, use and maintenance carefully to minimise the risk of incorrect installation.
- The product should be checked regularly for stability, damage and wear to ensure safety.
- Take care to keep children away from using the product, as there are sharp edges and potential sources of danger.
- Ensure adequate load distribution to guarantee stability and avoid overloading.
- Ensure that all assembled parts are properly fastened to ensure safe use of the product.
