Safety Instructions:

- This product may contain sharp edges and small parts that could cause injury or choking; keep away from children and cover sharp edges.
- Assembly and use should be carried out in accordance with the enclosed instructions, ideally by qualified personnel to avoid accidents.
- Ensure that the cabinet is stable on a level surface and that the integrated height adjusters (adjustable up to 10 mm) and the levelling feet (23 mm height) are properly installed to ensure stability.
- To avoid damage, do not place the cabinet near moisture or heat sources.
- Avoid sharp objects to prevent scratches on the surface of the product.
- Create sufficient space around the product to prevent falls.
- Regularly check the body and doors for damage, take the product out of operation if it is defective and inform the manufacturer.
- Follow disposal instructions in accordance with local regulations.
