Safety Instructions:

- Not suitable for children under 36 months as it may contain small parts that pose a choking hazard.
- Do not place any naked flames or heat sources near the product to avoid the risk of fire.
- The product should be installed in accordance with the enclosed instructions in order to avoid injury.
- Appliances and furniture should not be overloaded to prevent them from tipping over or breaking.
- If the cabinet is damaged or shows signs of instability, stop using it and consult a specialist.
- Make sure that sharp edges and corners are avoided to prevent injuries.
- Ensure that the roller shutter cabinet is stable and on a stable, level surface to prevent it from tipping over.
- Avoid overloading the shelves and inserts to prevent them from breaking or collapsing.
- Avoid contact with water and other liquids.
- Check all parts and mechanisms regularly for proper functioning.
- Children should be supervised when opening and closing the roller shutter doors to avoid injury.
- Suitable for indoor use only, not for outdoor use.
- Use suitable assembly instructions from the manufacturer and ensure that tools and small parts are out of the reach of children.
- The integrated height adjusters must not be overloaded in order to avoid damage.
- Ensure that the cabinet is secured against unauthorised opening to prevent access by children or unauthorised persons.
