Please note the technical data of the products!

**Article Numbers:** 192215, 192214, 192213, 192212, 192211, 192210

### Safety Instructions:

- The product must be properly assembled and stable to prevent it from tipping over or falling.
- Ensure that sharp edges or protruding elements do not pose a risk of injury.
- Ensure that the small parts of the lock are not loose to prevent suffocation.
- Avoid high loads on the shelves or the top of the cabinet to prevent breakage or to ensure stability.
- Sliding doors should always be used under adult supervision, especially in households with children.
- Always close the cabinet with the push cylinder lock when it is not in use to prevent unauthorised access. Regular maintenance of the lock is required to prevent theft.
- Make sure that the cupboard does not tip over, especially when it is heavily loaded, and use the adjustable feet to compensate for unevenness and prevent wobbling.
- Avoid placing heavy objects on or near the sliding doors to prevent damage or safety risks.
- Be aware of the risk of suffocation from small parts or panelling.
- Ensure that children cannot play with the product unsupervised, especially near doors when they are open or closed.
- Caution: Sliding doors can jam when closing. Observe pinch protection.
- Contains risk factors due to the use of melamine-faced chipboard; ensure that no harmful vapours escape during use.
- Avoid using the cabinet in damp environments to prevent material damage.
- Only use the recommended cleaning agents so as not to damage the surfaces.
