Safety Instructions:

- Ensure that the sliding doors are fitted and closed properly to avoid trapping and crushing injuries.
- Adjust the adjustable feet correctly to ensure stability and minimise the risk of tipping.
- Only use the push cylinder lock with the key provided and check its functionality regularly.
- Pay attention to sharp edges and possible injuries during transport and assembly.
- Place the cupboard in a stable position to prevent accidents caused by tipping over.
- Observe the maximum load limits of the shelves.
- Ensure that no parts are in the way to avoid tripping accidents.
- Follow the installation instructions and instructions for use in understandable language.
- Pay attention to uneven floors and use mats to ensure a stable standing surface.
- Do not allow children to use it as a toy.
- Use the interchangeable cylinder lock correctly to secure the contents.
