Safety Instructions:

- Ensure that sliding doors and other moving parts cannot become trapped and avoid placing heavy objects on the sliding doors to prevent damage and injury.
- Ensure that the cabinet is placed on a level and stable surface to prevent tipping and injuries.
- The product is intended for use in dry indoor areas and should be kept away from water sources and moisture to prevent damage.
- Keep small children away from cupboard doors and ensure that small parts cannot fall into the hands of children to avoid injury.
- Use the cylinder lock correctly and follow the safety instructions to prevent unauthorised access. Regularly check the functionality of the push cylinder lock.
- Protect the product from exposure to fire and heat.
- When handling the cabinet, watch out for sharp edges and corners and ensure that all sharp edges and corners are safely handled to avoid injury.
- Only use the product for its intended purpose.
- Read the installation instructions carefully and installation should only be carried out by adults. Take particular care during installation to avoid injury.
- Avoid overloading the shelves and observe the maximum permissible load to prevent breakage or deformation and to avoid imbalance.
- Adjust the height of the shelves and the adjustability of the feet properly to ensure ergonomic use and the stability of the cabinet.
