Safety Instructions:

- Ensure that the cabinet is positioned on a stable and level surface to prevent it from tipping over.
- Avoid overloading with heavy objects, especially on the upper shelves. Max. Load per shelf: 30 kg.
- Check and adjust the levelling feet regularly to compensate for unevenness and ensure stability.
- Hold heavy objects at the bottom of the cabinet for improved stability.
- Install and use the product in accordance with the enclosed instructions in order to avoid hazards.
- Keep the cabinet doors closed to prevent injuries caused by trapping. Watch out for fingers when opening the sliding doors.
- Use the push cylinder lock correctly to secure contents and prevent unauthorised access.
- Protect children in particular from open doors and mechanical parts. Small parts could pose a choking hazard.
- The product is not suitable for use by children. Be aware of potential hazards from sharp edges or mechanical parts.
- Avoid using the product in damp environments so as not to jeopardise the material integrity.
