Article Numbers: 192299, 192298, 192297, 192296, 192295, 192294

Safety Instructions:

- Ensure that the cabinet is standing on a stable and level surface and that the levelling feet are correctly adjusted to compensate for unevenness and prevent tipping.
- Follow the installation and manufacturer's instructions exactly to ensure a safe end product.
- Handle and install the sliding doors correctly to avoid injuries caused by jamming. Make sure that there are no objects in the way.
- Children should not play unsupervised near the cabinet and its use is not recommended for children without supervision to avoid injury.
- Observe the permissible load-bearing capacity of the shelves and avoid overloading the shelves to prevent them from breaking or tipping over.
- Use suitable methods such as wall mounting to secure the cabinet, especially in households with children, to prevent it from tipping over.
- Keep the cabinet away from naked flames, hot objects and water sources to prevent damage.
- Before use and at regular intervals, check all moving parts for proper functioning and inspect surfaces for damage to avoid injury.
- Check window locks, door locks and the integrated push cylinder lock regularly and only operate them in accordance with instructions from adults to ensure proper function and safety.
- Use suitable cleaning agents for cleaning the cabinet to avoid chemical risks.
