

Product Safety Information

Side panel, H 2278 mm

Please note the technical data of the products!

Article Numbers: 30560, 30559, 30558, 30557, 30556

Safety Instructions:

- Ensure that the side panel is correctly fitted between the shelf uprights to avoid the risk of falling, tipping and toppling over.
- Avoid crushing and cutting injuries when handling the galvanised sheet steel side panel and recommend the use of personal protective equipment. Watch out for sharp edges.
- Reference to the need for a stability assessment when storing heavy goods in racking.
- Regularly check for signs of damage or corrosion to ensure safety and longevity. Carry out inspections regularly.
- The user must follow the instructions for safe installation to avoid injury. Check fastenings and support mechanisms for safety before use.
- Product is heavy, safe handling by at least two people recommended. Material is stable, but protection against extreme conditions is recommended.
- Shelf must be installed and used in accordance with the manufacturer's manual to prevent tipping.
- Only use the product for the intended applications in order to avoid hazards. Not suitable for applications exceeding the load capacity.
- If the product is damaged, do not use it and contact the manufacturer immediately. The product must not be used by children.
- Materials must comply with safety standards (e.g. no harmful chemicals in galvanised sheet steel).
- Special precautions are necessary when using the product in areas with children.
