boltless shelving R 3000, complete shelving 5,155 m, 1 basic and 4 add-on bays incl. 25 shelves

Please note the technical data of the products!

Article Numbers: 28617, 28616, 28615

Safety Instructions:

- Do not exceed the maximum load per shelf (100 kg).
- Only use the shelf for its intended purpose.
- Ensure that the shelf is stable, especially when fully loaded.
- When using in households with small children, fit a child safety lock.
- During assembly, attach all parts correctly and completely to ensure stability.
- Protect shelving from tipping over, especially near passageways or traffic routes.
- Do not overfill shelves to prevent them from tipping over.
- Avoid overloading the upper compartments, as this can impair stability.
- Make sure that the shelf is on a stable, level surface.
- Keep aids to hand to prevent accidents when reaching shelves that are too high.
