Please note the technical data of the products!

Article Numbers: 28621, 28620, 28619, 28618

Safety Instructions:

- Do not exceed the maximum load per shelf (100 kg).
- Fasten the shelf securely to the wall to prevent it from tipping over.
- Children should only use the shelf under supervision.
- Do not load beyond the maximum bay load (1500 kg).
- Check carefully for stability before use.
- Ensure that all installation instructions are followed to ensure structural integrity.
- The shelf should be placed on a level surface to prevent it from wobbling or tipping over.
- Avoid overloading the shelves due to improper arrangement of goods.
- Check shelves regularly for signs of damage or wear.
- Ensure that no overhanging or unsecured objects are stored on the shelves.
- Keep children away from the shelves to prevent accidents.
- Use cross bandages for reinforcement and safety.
- Support the use of suitable protective equipment during assembly.
- Follow the specific instructions for installation and use.
