Safety Instructions:

- Caution: Sharp edges and corners can cause injuries. The product must be designed so that it has no sharp edges.
- Observe the maximum load capacity of the shelving unit and the shelves to ensure stability.
- Ensure that the shelf is mounted stably and stands on a level surface to prevent it from tipping over; secure it to the wall if necessary.
- Avoid climbing on the shelf to prevent the risk of falling.
- Ensure that the product is installed correctly; instructions for correct installation should be provided and followed.
- Use suitable mechanical fasteners to ensure stability; screws and fasteners must be checked for tightness after installation.
- Carefully read the product information on the packaging or in the manual supplied; follow the safety instructions.
- The product should be checked regularly for stability and wear; check connections for stability; adjust height adjusters evenly.
- Not suitable for outdoor use; avoid humid or extremely hot environments to prevent material distortion.
- Keep heavy objects on the lower shelves to increase stability.
- Only use the product in accordance with the instructions.
