Safety Instructions:

- Make sure that the shelf is stable to prevent it from tipping over.
- Do not overload; observe the maximum load per compartment to avoid damage and instability.
- Ensure that heavy objects are not stored overhead.
- The shelf must be secured to the wall to avoid the risk of falling.
- Follow all enclosed instructions during installation to ensure safe use.
- Check the shelf regularly for stability and damage.
- Keep the product away from moisture and extreme temperatures to protect the surface and material.
- Use the height adjusters correctly and only as specified to ensure even stability.
- Shelf not suitable for children under 36 months, choking hazard due to small parts.
- Use suitable floor protectors to prevent damage to the floor.
- Caution during assembly: risk of injury from sharp edges and heavy parts.
- The operating instructions with installation and safety instructions must always be kept.
