Safety Instructions:

- Include and follow the installation instructions and safety information in plain language.
- Do not place excessive loads on the shelves to prevent them from tipping over.
- Regularly check the stability and safety of the shelving.
- Do not set up the product near open flames or in damp environments.
- Ensure stability when placing heavy objects.
- Avoid climbing on the shelf to minimise the risk of falling or injury.
- Keep the shelf away from sources of water to prevent damage to the material.
- Ensure that the shelving unit is placed on a level and stable floor to prevent structures from wobbling and tipping over.
- The product instructions and recommended installation materials must be followed exactly for installation.
- Smaller parts in the packaging material may pose a choking hazard.
- Only use the height adjusters supplied for height adjustments.
- Not suitable for children under 3 years of age due to possible risk of injury.
- The shelf is not suitable for use by children and does not offer any special safety precautions for children.
- Only use suitable shelves in order not to exceed the load capacity.
- Be careful when handling sharp edges and tools during assembly.
- Keep children away from the shelf and its contents to avoid injury.
