Safety Instructions:

- Avoid using the shelf in damp environments.
- Secure the shelf to the wall to prevent tipping and additional instability. Only use the recommended or suitable mounting materials.
- Only use the shelf in accordance with the intended functions and weight limits. Avoid overloading the shelves to prevent them from breaking, collapsing or tipping over. Heavier objects should be placed on the lower shelves.
- Ensure that the integrated height adjusters are properly secured and that stability is maintained during adjustment.
- Keep children and sharp or pointed objects away to avoid injury. The product is not suitable for children under 3 years of age due to the risk of crushing injuries. Keep all small parts away from children to avoid the risk of choking.
- Follow the assembly instructions carefully to ensure safe use and assembly. Read the assembly instructions carefully before use.
- The shelf must be placed on a stable and level surface. Regularly check the stability and condition of the shelving unit.
- Wall mounting is recommended to ensure that the shelf is securely positioned and to prevent it from tipping over.
- Several people should lift and transport the shelf to avoid injuries caused by heavy lifting.
- Beware of sharp edges and corners during assembly and use.
- Observe the external dimensions and maximum load according to the manufacturer's specifications.
